

Dear Hiring Team,

I am writing to apply for this internship opportunity. I am a Computer Systems Engineering student at Palestine Polytechnic University. I am interested in this internship because many students at my university recommended it and said it is useful. I believe it will help me improve my technical skills and gain practical experience.

I have good knowledge in C++ and Java, and I have worked on projects such as a MIPS pipeline simulator and a competitive programming code repository. I also have experience in problem solving through programming competitions, and I currently help other students learn C++ and algorithms.

I am motivated, hard-working, and ready to learn. I believe this internship will be a good chance for me to grow and prepare for my future career.

Thank you for considering my application.

Sincerely,
Basel Al-Jabari
